DATA & REPORTING ANALYST

Data Analyst with 3.5+ years of experience in data analysis, MIS reporting, workflow automation, and dashboard development. Skilled in Python (Pandas, NumPy), Power BI, Advanced Excel, and SQL to analyze large datasets and deliver actionable business insights. Proven track record of automating manual workflows—reducing operational turnaround times by up to 90%.

CORE COMPETENCIES

- **Data Analysis & Scripting:** Python (Pandas, NumPy), SQL Queries, Google Apps Script, Data Cleaning & Validation
- **Business Intelligence & Reporting:** Power BI, Advanced Excel (PivotTables, Power Query), MIS Reporting, Dashboard Development
- **Automation & Process Improvement:** API Integration, Workflow Automation, Reporting Automation, Data Transformation

PROFESSIONAL EXPERIENCE

Data Ninja (Analyst) – Mobikasa | Jun 2025 – Present

- Analyzed and managed data across 10–12 high-priority web properties, contributing to a ~20% revenue increase.
- Engineered an API-based content automation tool using Google Apps Script for 1,000 products, cutting a 10-day workflow to 1 day (90% reduction).
- Designed automated Excel and Power BI reporting systems for customer support operations and team productivity.
- Developed SQL queries to extract, clean, and aggregate multi-table business datasets for executive reviews.
- Streamlined recurring MIS reporting, reducing report generation turnaround time by 25%.

Data Specialist – Army Headquarters (ISRS & Facility Management Collaboration) | Mar 2024 – Feb 2025

- Managed and audited operational datasets for performance monitoring and resource utilization reporting.
- Built interactive dashboards using Power Query, PivotTables, and advanced formulas.
- Performed SQL-based extraction, cleaning, and validation on internal databases.

Data Entry Operator – Army Headquarters (NetCreativeMind Pvt. Ltd.) | Apr 2022 – Jan 2024

- Validated and processed daily operational database entries, maintaining 99%+ data precision.
- Generated daily and weekly MIS reports for performance tracking and documentation.

PROJECTS

Employee Performance & Productivity Dashboard | Power BI, DAX, HR Analytics

- Modeled 600+ employees and 503K+ tasks across 6 regional offices; built indicators for 87.45% attendance and 75.04% task completion.

GitHub: employee-performance-dashboard

Desktop Voice Assistant (Jarvis) | Python, SpeechRecognition, Pyttsx3, GitHub Actions

- Built voice-controlled desktop/web automation with email dispatch via smtplib and automated code verification using GitHub Actions.

GitHub: jarvis-desktop-assistant

EDUCATION

Master of Computer Applications (MCA) | Chandigarh University | Jan 2026 – Jan 2028 (Pursuing)

Bachelor of Arts (BA) | IGNOU | 2025

KEY ACHIEVEMENTS

- 3.5+ years of analytics, MIS reporting, automation, and dashboard development experience.
- Delivered insights associated with ~20% revenue growth and reduced a 10-day content workflow to 1 day.
- Delivered high-precision reporting dashboards for corporate and defense-sector decision-makers.
