DATA & REPORTING ANALYST

Data Analyst with 3.5+ years of experience in data analysis, MIS reporting, workflow automation, and dashboard development. Skilled in Python (Pandas, NumPy), Power BI, Advanced Excel, and SQL to analyze large datasets and deliver actionable business insights. Proven track record of automating manual workflows—reducing operational turnaround times by up to 90%—and building scalable analytics dashboards for executive decision-making.

CORE COMPETENCIES

- Data Analysis & Scripting:** Python (Pandas, NumPy), SQL Queries, Google Apps Script, Data Cleaning & Validation
- Business Intelligence & Reporting:** Power BI, Advanced Excel (PivotTables, Power Query), MIS Reporting, Dashboard Development
- Automation & Process Improvement:** API Integration, Workflow Automation, Reporting Automation, Data Transformation

PROFESSIONAL EXPERIENCE

Data Ninja (Analyst) – Mobikasa

Jun 2025 – Present

- Analyzed and managed data across 10–12 high-priority web properties, contributing to a ~20% revenue increase.
- Engineered an API-based content automation tool using Google Apps Script that generates detailed content for 1,000 products simultaneously, cutting a 10-day manual workflow to 1 day (90% reduction).
- Designed and maintained automated Excel and Power BI reporting systems for customer support operations and team productivity.
- Developed complex SQL queries to extract, clean, and aggregate multi-table business datasets for executive reviews.
- Streamlined recurring MIS reporting processes, reducing report generation turnaround time by 25%.

Data Specialist – Army Headquarters (ISRS & Facility Management Collaboration)

Mar 2024 – Feb 2025

- Managed and audited large operational datasets for performance monitoring and resource utilization reporting.
- Built interactive dashboards using Power Query, PivotTables, and advanced formulas to track key operational indicators.
- Performed SQL-based extraction, cleaning, and validation on internal databases to maintain high data accuracy.

Data Entry Operator – Army Headquarters (NetCreativeMind Pvt. Ltd.)

Apr 2022 – Jan 2024

- Validated and processed daily operational database entries, maintaining 99%+ data precision.
- Generated daily and weekly MIS reports for operational performance tracking and documentation.

PROJECTS

Employee Performance & Productivity Dashboard | Power BI, DAX, Data Visualization, HR Analytics

- Modeled data covering 600+ employees and 503K+ tasks across 6 regional office locations.
- Built dynamic indicators including 87.45% average attendance and 75.04% task completion rate.
- Integrated quarterly slicers and department/location breakdowns for rapid stakeholder analysis.
